EXPERIENCE

Beton24 – Enterprise Resource Planning Solution

FullStack Developer - PHP, YII, VueJS, MySQL

📅 2023/06 – 2024/08 📍 Uzbekistan

- Developed an end-to-end ERP system for construction material manufacturers, automating Human Resource Management (HRM), accounting, production, and supply chain workflows previously managed on paper.
- Improved performance by optimizing complex SQL query joins, and implementing caching using JavaScript Service Workers, resulting in faster load times and reduced server load.
- Designed and implemented MVC architecture and database structure (90% contribution) using the Yii2 framework.
- Built a comprehensive management dashboard, integrated Telegram bot, implemented SMS notification system and FSM-based push-notifications.
- Implemented PWA (progressive web application) while adding evolving client requirements.
- Techs: PHP (Yii2 Framework), MySQL, jQuery, FSM (Firestore Messaging) Notifications, Bootstrap, Git, Linux

Taskinmed – Solution for Medical Centers

Backend Developer - FastAPI, WebSocket, VueJS

📅 2023/01 – 2023/04 📍 Uzbekistan

- Developed an Electronic Medical Record (ERM) system for medical centers managing patient history, diagnosis, prescriptions, real-time queues using websockets with a RESTful backend
- Implemented real-time queue monitoring via WebSockets and built a PyDub-based audio system to dynamically generate and stream client call messages with ticket and room information through FastAPI; handled transactions and complex query joins using SQLAlchemy ORM, and secured APIs with Pydantic.
- Techs: FastAPI, SQLAlchemy, Pydantic, Uvicorn, Git, MySQL, WebSocket, Linux, Nginx, Pytest, PyDub

PCCCRM – Professional Carpet Cleaning CRM

FullStack Developer - PHP, YII, JQuery

📅 2021/08 – 2023/06 📍 Uzbekistan

- Developed SaaS-based CRM system automating carpet cleaning workflows from order to delivery, accounting, employee attendance management, integrated SMS notifications.
- Techs: PHP (Yii2 Framework), MySQL, jQuery, Bootstrap, Git, Linux

TECHNICAL SKILLS

PHP

YII

Laravel

Python

FastAPI

NumPy

Pandas

JavaScript

Express.js

Vue.js

React.js

JQuery

SQL

PostgreSQL

MySQL

MongoDB

Bootstrap

Tailwind

CSS

Apache

Nginx

Docker

Linux/Ubuntu

CI/CD pipelines

GitHub

PyTest

PHPUnit

EDUCATION

B.Sc. in Computer Engineering

IT Coverage, Gachon University

📅 September 2024 – July 2028

GPA: 4.42/4.5
